A. NO electronic devices allowed (pagers, cell phones, PDA, etc.) in the competition area.

B. All contestants must provide a 1-page resume at the beginning of the contest. A 10-point deduction is given if not turned in at this time.

SCOPE OF THE CONTEST:

The contest will evaluate the contestants' ability to perform as an Emergency Medical Technician with the National Registry Patient Assessment Technical Scope of Practice Standards (TSOPS) as defined by National Highway Traffic Safety Administration (NHTSA, 2007, p.24), the most current American Heart Association CPR/ECC guidelines, and the AAOS Emergency Care and Transportation of the Sick and Injured 11th Ed. The event will consist of three rounds of competition for a two-person team. (Note: *the AAOS 12th edition is available but the changes from the 11th edition are not significant enough to affect the contest.*)

IMPORTANT NOTE:

- *Advisors, family, friends are not allowed to have ANY contact with contestants during the contest or the contestant will be subject to disqualification!*
- *Contestants must have with them the contact name and cell phone number of the advisor from their school that is responsible for him/her. Failure to do so may result in disqualification!*

Written Test

Round One is a written knowledge test completed by all competitors during the testing window. (March 13th to March 27th) Team member scores are combined and averaged to create a composite team score.

Skills Performance

Round Two will include TSPOS demonstrations at four various stations. The competition will include activities that simulate situations encountered by emergency medical professionals. There will be one full out of hospital clinical scenario, either medical or trauma in nature. All teams will have the same clinical scenario. All stations will require performance of select skills needed to appropriately treat the patient, the use of critical thinking skills, communication, and demonstration of professionalism.

Stations may include any skills that are part of the Indiana EMT scope of practice.

Timing will begin when the scenario is presented to the team and competitors will be stopped at the end of the time allowed. Judges will provide information to competitors as directed in the scenario guide. Competitors may ask questions of the judges while performing skills if the questions relate to patient physiology and applicable answers that can be provided will be included in the scenario script/documentation.

Judge's Tip: In the scenarios provided there will be patient information that is only provided to the contestants if they perform a specific skill and/or ask a patient a question that identifies that specific patient assessment answer. For example, you would not provide a contestant with the patient's pulse rate unless they perform the skill to assess the patient's pulse.

Scoring Breakdown

SkillsUSA Professional Development Test: 25

EMT Knowledge Test: 100

Skill Station 1: 200

Skill Station 2: 200

Skill Station 3: 200

Out of Hospital Scenario: 275

Penalties

Uniform Violation: -50

Missing Resume: -10

Revised 3/26
